

[Philosophy]

Schaufler has made an essential contribution to the active **protection of the environment** for decades.

Our aim is to offer high quality services to our customers and to support them with total waste management.

- **Satisfied customers** are our ultimate target, as well as long-time partnerships of the highest quality standard.
- **Environmental compliance** is a matter of course. We try to avoid environmental pollution as far as possible and economically justifiable.
- The **improvement of all workflows concerning quality and environment** is very important. We are continuously working on the improvement of our services and on the development of our operational environment protection.
- **Permanent training and motivation of our employees** pose a high priority in awareness of the importance of each employee.
- **Information for our customers and partners** about our ambitious efforts in quality and environment, forms the basis for long-time cooperations with like-minded enterprises.
